

Case Study: Procurement of new energy contract for Star City Birmingham

EnvirUP is a dynamic and client focused Environmental Consultancy. **Envirup** can procure new electricity contracts tailored to meet your energy requirements.

What we offered

With Star City we:

- Carried out a full market tender exercise to procure a new energy contract for the landlord supply. We reduced the electricity annual charge by £35,493
- Due to a change in tenancy, we managed the supplier billing process to ensure correct invoicing of charges
- We negotiated with the energy supplier to backdate the charges resulting in a saving of £35,251
- We provide on-going billing and energy management support for the duration of the energy contract

Customer Feedback

"I am delighted with the service, you have taken the stress away from me and I would recommend you"
